First Grade Unit 2

Who We Are

Central idea: Our world consists of unique landscapes and cultural values.

In Unit 2 students studied what our world looks like and learned about the many different types of landforms! They also learned the continents in our world and where we are located. Students had many learning engagements such as creating 3-D globes on a balloon, and researching the different continents and creating posters to present!

Lines of Inquiry

Where does our family live?

What does our world look like?

Why are we proud of our country?

In art class, 1st grade created landform collages!

1F2's posters showing their knowledge of the continents and oceans

1G created a world map showing the continents!

1st grade's poster demonstrating their research on different continents!

1F1's booklets showing the student's recognition of where they are located in the world!

Upcoming Unit

In this upcoming unit titled "All Those Heroes!" students will learn about historical figures who shaped our history. They will inquire into how certain historical figures have made changes in the world, and how they still impact our life today. Students will learn about many historical figures such as Ruby Bridges, Benjamin Franklin, and Teddy Roosevelt.
